EvergreenbyDebra.com

For accurate color selection please refer to physical concrete samples prior to confirming your purchase. Some variation in color is expected. Minor nicking can occur during shipping, but will not affect overall aesthetic or use. Products are handmade from naturally occurring materials. Product dimensions have a tolerance of +/- 1/4 inch. It is recommended to clean and seal the surface of the products before grouting joints. This will help mitigate any color variations caused by grout staining. Excess grout should be removed immediately during the installation process.
